

Are the categories that drive revenue also the most profitable?

Ranking by margin and by revenue does not match.

Where do we lose customers in the sales funnel and is there any difference by the browser?

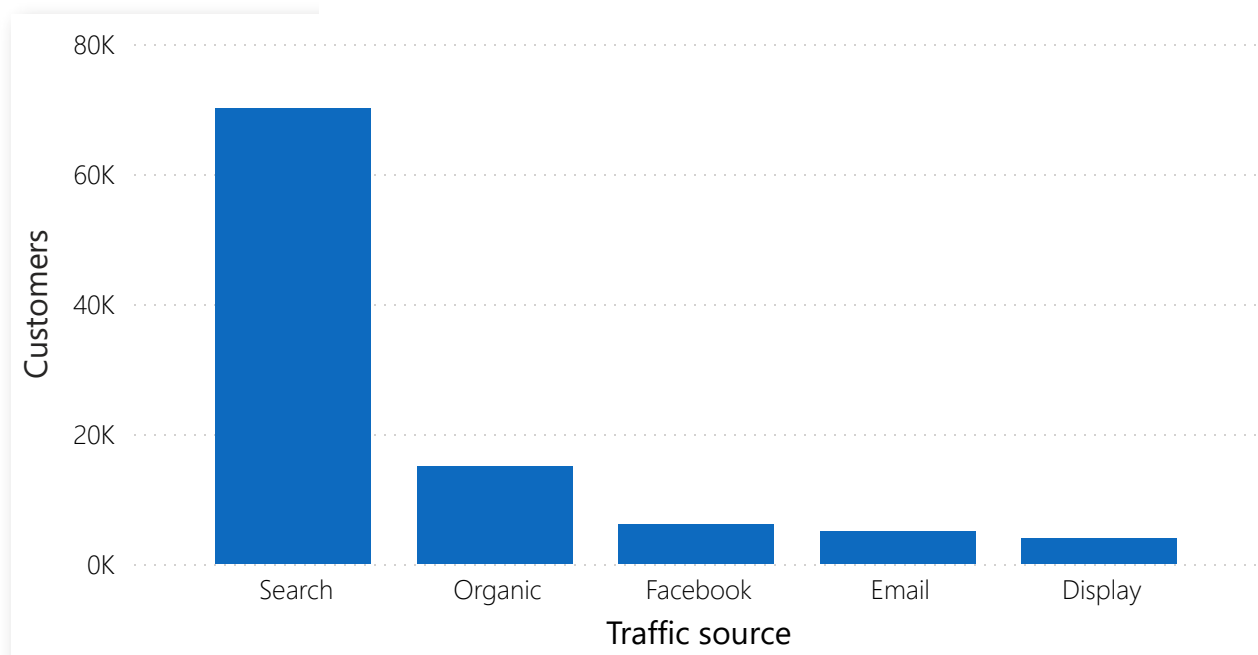

Of all sessions, 63.3% reached the cart and 26.6% completed a purchase.

Browser	Total sessions	Product view	Cart	Purchase
Chrome	340751	100.0%	63.4%	26.7%
Firefox	136916	100.0%	63.2%	26.5%
IE	33929	100.0%	62.8%	26.4%
Other	33958	100.0%	63.5%	26.9%
Safari	135843	100.0%	63.4%	26.5%
Total	681397	100.0%	63.3%	26.6%

Chrome is the most popular browser, but funnel conversion is nearly identical across browsers.

Which channel brings the most valuable customers?

Average revenue per customer ranges from \$107 to \$111 across the five channels, a spread of roughly 4%. Given the difference in sample size (3,896 to 70,123 customers), this is too small to support a budget decision. Channels differ primarily in volume, not in customer value.

Traffic source	Total customers	Repeat rate	Repeat rate %	Average revenue per customer
Search	70123	21182	30.2%	\$108.1
Organic	14946	4432	29.7%	\$109.2
Facebook	6045	1855	30.7%	\$106.7
Email	4990	1474	29.5%	\$111.4
Display	3896	1168	30.0%	\$107.2
Total	100000	30111	30.1%	\$108.3
